Included, confident learners in the community

New Struan School Poverty Proofing Statement

At New Struan School we are acutely aware of the pressures that the cost of the school day can put on our families. For this reason we ensure that Local Authorities commission a service from us which is fully inclusive of all resources, meals and experiences we offer meaning that there is no financial barrier to education for our young people or their families.

New Struan is part of Scottish Autism which is an autism awareness charity and the largest provider of services for autistic people in Scotland. As part of Scottish Autism the school is able to fund raise to provide our therapeutic offering and a broad range of experiences for young people with no additional costs passed to our families.
